“ Sports teach life skills like confidence, physical and mental well being, in a fun way. ”

Spread over 15 acres of professionally managed infrastructure, ‘Sports Maidan’ – the Sports Hub, Gurugram provides insights into sports that inspires, educates, motivates students through 40 different sports and activities. The qualified/active coaches help children to play and learn sports through self-evaluation and enjoyment.

‘Sports Maidan’, on the basis of feedback from educators and sports council, has selected sports that are not available in most of the schools but are part of “Khelo India School Games” and “Summer Olympic Games”. Built like a sports hub, it introduces children to real sports in a safe and unique environment.

The program aims to generate interest towards sports and to educate students about their advantages, rules and future prospects. It is in line with the goals of “**FIT INDIA MOVEMENT**” to help every child play atleast one sport.
